How would you like to experience end-of-life?

It's never too soon to start considering your end-of-life experience. The way we die can be as unique as the way we live, so it's worth thinking through your options in advance. It's also important to communicate your wishes to someone who you trust to honor them and help you carry them out.

Important Words to Know

An Advance Directive, also known as a Living Will, this document communicates your end-of-life wishes and related medical treatments. In this document, you detail what kinds of treatments you would and would not want at the time.

Who can help carry out your end-of-life wishes?

An important part of planning is choosing a "health care agent". This is a person close to you who will carry out your wishes and make decisions when you are no longer able to do so. Your agent should be someone whom you trust and on whom you can depend.

Once you know who your agent will be, the next and most important step is to have a conversation with them about your wishes for end of life care. (Please refer to the Wonder section of this package for some ideas on how to get the conversation started!)

Important Words to Know

After determining your agent, you'll need to fill out a Health Care Proxy Form (also known as a Durable Medical Power of Attorney). This varies per state. In California and New York, the Health Care Proxy Form is included in Advance Health Care Directives. This officially appoints your agent to carry out your wishes.

What will you leave behind?

After you die, you'll leave behind a legacy through memories, objects, photos and words. When planning what to leave behind, there are a couple things you might want to prepare. You may want to write up a will, compile important documents, pass on important objects, and record significant stories.

Important Words to Know

A will is: a document that details how your belongings and assets will be distributed. If you don't have a "formal" will, a handwritten (or "holographic") will is legally binding. Without a will, the state will decide who among your domestic partners and relatives receive your assets; friends, unregistered domestic partners, and charities are not eligible to receive assets in this case.

After Gifting is the practice of creating something while you are alive. These are objects, gifts, or other itemsthat are meant to be given to people after you die, i.e. a map of your favorite places. Also consider leaving a letter or some other expression of your story and values for those who you love you. What might you start on today?

Wonder Section

Fold-out section

This double sided poster discusses the topic of wonder.

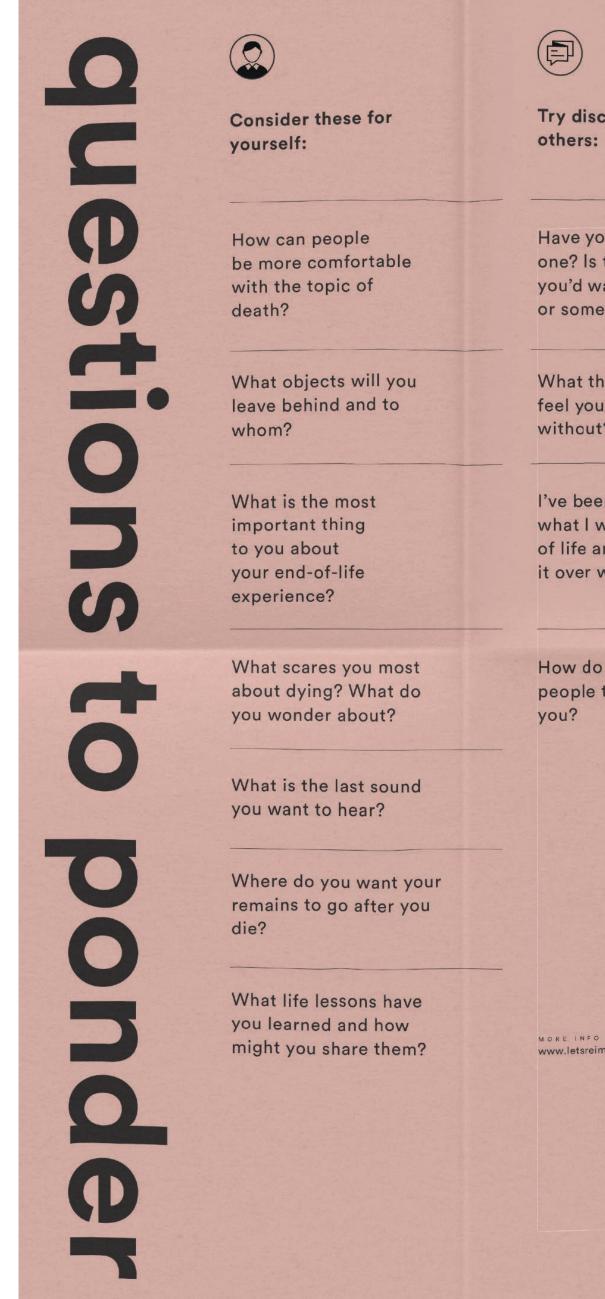

The front of the poster is designed as a list of questions in 2 formats.

1 specific to one self, the other as it relates to conversation with others.

On the back is the wonder fill in the blank.

The poster folds down to the card size to fit in behind the intro card.

Sections are coded for user reference.

Try discussing with others:

Have you lost a loved one? Is that how you'd want it to be, or something different?

What things do you feel you couldn't live without?

I've been thinking about what I want at the end of life and I'd like to talk it over with you.

How do you want people to remember you?

About us Section

This card shares some highlights about Reimagine and on the back a card for how folks can support.

• ()

What we do:

Reimagine End of Life is a non-profit organization dedicated to creating opportunities for each one of us to explore death and celebrate life. We are reaching out to every corner of the city to engage with each other in Wonder, Preparation and Remembrance, and to share with our loved ones what matters most to us in life and the kind of care we wish to receive at the end of our lives.

How we do it:

Reimagine End of Life is community driven, hosted by and for the community. Many of our events are free, and wherever possible, we keep event prices low to encourage participation across the many neighborhoods and communities that live here.

How you can help:

Ticket fees do not cover the costs of bringing quality presenters, artists, physicians, musicians, film personalities or comedians to Reimagine End of Life events.

If you have been inspired by what you've experienced here...

If you believe that these conversations are important for everyone to have...

If you want to help Reimagine reach even more people throughout community outreach efforts...

We hope that you will consider making a generous gift to Reimagine End of Life.

Thank you for your support and your commitment to reimagining what living and dying could be.
